Vol. 32, No. 37, September 14, 2007

Tran v. State, 32 Fla. L. Weekly D2119 (Fla. 4th DCA 2007):

Order imposing medroxyprogesterone acetate injections for period of five years subsequent to defendant's consecutive sentences of imprisonment for two separate sexual batteries violated double jeopardy where penalty was imposed approximately four months after sentencing hearing.

Administration of MPA is a penalty, not a remedial treatment.
