

SUMMARY OF CHAPTERS

[Child Pornography/Solicitation:](#)

This chapter discusses all Florida appellate decisions regarding the child pornography and child solicitation on the Internet.

[Consent Searches:](#)

This chapter discusses Florida and federal appellate decisions concerning consent searches. It is very expansive and covers a little more than just consent.

[Expectations of Privacy in Internet Communications:](#)

This chapter discusses both state and federal cases ruling on whether various types of information on the Internet are afforded a reasonable expectation of privacy.

[Miscellaneous Issues:](#)

This chapter includes numerous helpful state and federal cases concerning topics that don't fit within the other chapter, such as authenticating electronic evidence and confronting defenses such as the virtual child porn defense.

[Particularity Requirements:](#)

This chapter discusses both state and federal cases involving particularity requirements in search warrants.

[Plain View Doctrine:](#)

This chapter discusses state and federal cases concerning the plain view exception.

[Probable Cause Issues in Child Pornography Cases:](#)

This chapter discusses state and federal cases concerning when the government has probable cause to obtain a search warrant on child pornography cases.

[Workplace Searches:](#)

This chapter discusses primarily federal cases where the courts discussed whether public employers engaged in 4th Amendment violations for searching the computers of their employees..

Entrapment:

This is a fairly extensive review of both Florida and federal case law concerning entrapment.
